“Everything you need to keep your team safe.”

“The recent near miss incident serves as a powerful reminder of the critical role played by the Plumb Guard™ “

John Perry, Sydney Water

The Plumb Guard has already demonstrated its ability to save lives in the workplace. By promptly detecting hazardous voltages and triggering alarms, it plays a crucial role in preventing accidents and protecting the well-being of workers. The device's reliable performance and track record make it an invaluable tool for maintaining safety standards.
